

Summer Holiday Maths!

Don't forget your maths skills over the summer holidays! Try some of these activities to keep your brains ticking over!

The KS2 BBC Bitesize website has loads of great maths games to play and they are linked to all of your favourite programmes!
<http://www.bbc.co.uk/bitesize/ks2/maths/>

Impress your new teacher by doing some MyMaths activities! Don't forget the games on there too!

Design a maths game for your friends and family to play.

Practise your measuring skills by designing a smoothie or baking something tasty!

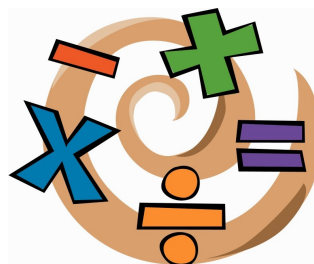

Find out the exchange rate of the place you are going on holiday! Can you work out how much your souvenirs will cost in pounds?

Are you planning on going out for the day? Work out the budget for the day. Will you be able to have an ice cream?

Perhaps you are planning on moving the furniture around in your bedroom. Measure your furniture and find out the area. Create a floor plan so you know your furniture will fit!

This website has links to loads of different maths games to play on line!
