

LIGHT

**2015 is the Science
year of light!**

<https://www.youtube.com/watch?v=a4Fv98jttYA>

We need you!

Your Science homework is to come up with an investigation about light.

You can ask any question.

You must try to find the answer.

Use your grown ups!

What do you need to include in an investigation?

Did you get?

A question.

Only change one thing so that it is a fair test.

Keep everything else the same.

Have your equipment ready.

Think about what results you are going to measure.

A results table.

Your prediction and your reasons why.

Your results.

Why you think it happened (your conclusion).

Sharmans will have 2 winners!

On the Monday of Science week, we will create Sharmans science museum where adults will be able to see what you have done.

Be ready to explain to your visitors what you have done.

There will be a winner from Y3 and 4 and one from Y5 and 6. They will go and meet real scientists in their laboratories at Wolverhampton University.

If you win against other schools, you will win entry to many places.

What question could you ask?
