Dear Parents,

After the success of our Family Workshops last year, we are delighted to announce the dates for our workshops throughout our next school year. There is no need to fill anything in at this time; we just ask that you put these dates in your diary so that you are able to attend and further details will follow.

The main purpose of the workshops are for you to **work with you child** on a project that will then form the **basis of their homework over the next half term**. Each child should have an adult with them and if you are unable to attend, we require you to **make arrangements for another family member** or another parent to be the designated adult. Children without an adult will still carry out the workshop but with a Teaching Assistant in their classroom.

The workshop proved very valuable for both children and parents. Some comments included:

'I absolutely loved seeing my parent and finding information with them. I wish we could do it again.'

'I liked having a longer conversation than normal - I want to do more working together.'

'You could work things out as a family and have each others support.'

'Sharing ideas and hearing my child's thoughts.'

'Working together in a more structured environment rather than being at home.'
